Lab Activity

Activity 1:

Decide your Team Leader and Team Speaker. If you have not done so yet, get to know your team members by introducing yourselves (see Lab 1).

Activity 2: Team Project Topic

Ensure your team is aware of the assigned project.

Your team will:

- create a short competitive statement (2-3 paragraphs) to introduce the team expertise, review for the project specs and requirements to describe the reasons of topic choice;
- upload it on Canvas->Discussions->Project Choice relevant section;
- teams can identify clashes and negotiate as a team or through team speaker on Canvas should they wish.

In week 3, you will interview your clients.
